Certification Process:
Zhaga-NFC programmable devices

Organisation

Process

Comment

1 Conduct tests as specified in book 24 and book 25

Device manufacturer uses the Qualified NFC Readers specified in Book 24 (Annex A) and the reference Reader specified in Book 24 and Book 25 together with appropriate programming software to conduct tests in line with test specifications of both books.

2 Submit product documentation to Zhaga Test Centre

A Zhaga test center approved for Book 24 and Book 25 must be selected for submission.
Zhaga test house verifies that the self-declaration form is correct.

3 Product awarded Zhaga-NFC certification and use of Zhaga-NFC logo

Product Zhaga-NFC certified and traceable in Zhaga product database.

Associate or regular membership of Zhaga is required. Joining Zhaga.

A List of Zhaga approved test centres can be found here. Only specific test centres can certify for specific books. Test centres can offer advice and direction with product approval.
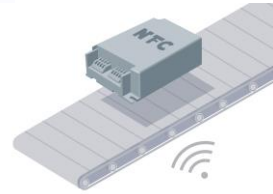

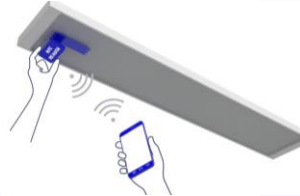

Certification Process: Zhaga-NFC readers

Organisation

Associate or regular membership of Zhaga is required. Joining Zhaga.

Process

1 Listing with Bluetooth SIG

2 Conduct tests as specified in book 25

3 Submit product documentation to Zhaga Test Centre

4 Product awarded Zhaga-NFC certification and use of Zhaga-NFC logo

Comment

Before Zhaga certification, the product must be listed* with Bluetooth SIG. Listing may be done without testing, if based on a qualified component (e.g. RF module) referenced in the listing.

NFC Reader maker uses the reference Programable Device (ANT7-T-ST25DV04K) to conduct tests in line with test specification in Book 25.

A Zhaga test center approved for book 25 must be selected for submission. Zhaga test house inspects the self-declaration form and verifies the product is listed on the Bluetooth SIG web-site.

Product Zhaga NFC certified and traceable in Zhaga product database.

A List of Zhaga approved test centres can be found here. Only specific test centres can certify for specific books. Test centres can offer advice and direction with product approval.
